Single Post Permissible Field Splice

(Not allowed on telescoping posts)

Foundation Anchor Sleeve

Single Post Foundation Detail

Detail "A"

Notes:

1. If any post section is shorter than the panel height, the field splice shall be behind the panel.
2. Field splices are not permitted on telescoping posts.

Notes:

1. All dimensions are in inches, except as noted.
2. All square perforated posts shall be 2" x 2".
3. For estimating purposes, concrete quantity per post is 1.0 CU/FT.
4. A yellow plastic sleeve shall be installed at the base of all sign posts.
